

PRACTICAL HINTS AND TIPS FOR THE DESS WEBSITE (1)

It is easy to like, to give a comment and to get an email when a new article is published.

Below each article, there is “Like”-button. Press it to tell other visitors to the website that you like the article. A square will then appear which says who had liked the article. If there is no photo in the square, you can find out who has liked by moving the arrow of the mouse over the square.

Below the headline for each article, there is a row with among other things the date of the publication of the article. In this row, there is also the word “Comment”. When you click on it, a window opens where you write your comment.

If you do not have a Wordpress account, you will be asked to give your email address. However, it is not necessary to do so. If you don't give the address, the comment will be marked to have been given by an anonymous person. Because of this, it is a good idea to write your name at the end of the comment.

It is also possible to register on the website and automatically get an email when a new article is published. Every visitor to the website, which are not already registered, will see a button, which says in bottom right-hand corner of every article with the word “Follow”.

Click on the button, write your email address in the box, which appears and finish with pressing the button “Create Account”.

Good luck!
